| Date          | 1 March 2024                                   |
| Team ID       | 740009   |
| Project Name  | Student Adaptability Level of Online Education |
| Maximum Marks | 3 Marks  |

### Define Problem Statements (Student Adaptability to Online Education):

Create a problem statement to understand the students' perspectives on adapting to online education. This template helps focus on what matters to create experiences that students will find effective and engaging. A well-articulated student problem statement allows you and your team to find the ideal solution for their challenges. Throughout the process, you will also be able to empathize with the students, helping you better understand how they perceive online education

|                            |  |
|----------------------------|--|
| <b>I am</b>                | Describe the student and their attributes here                               |
| <b>I 'm trying to</b>      | List the thing they are trying to achieve here                               |
| <b>But</b>                 | Describe the problems or barriers that get in the way here                   |
| <b>Because</b>             | Describe the reason the problems or barriers exist                           |
| <b>Which makes me feel</b> | Describe the emotions that result from experiencing the problems or barriers |
